Volume contents

Vol. 109, No. 1

1 Modifications of the immune response induced by *Histoplasma capsulatum* products
B.H. Ruiz, R.E. Carvajal & L. Ortiz-Ortiz

11 Rhinosporidiosis in man: Case reports
V. Chitravel, B.M. Sundaram, S. Subramanian, M. Kumaresan & S. Kunjithapatham

13 Virulence of *Paracoccidioides brasiliensis*: The influence of *in vitro* passage and storage
E. Brummer, A. Restrepo, L. H. Hanson & D.A. Stevens

19 Antagonistic potential of *Gliocladium virens* and *Trichoderma longibrachiatum* to phytopathogenic fungi
S. Sreenivasaprasad & K. Manibhushanrao

27 Chromoblastomycosis in Malaysia
P. Jayalakshmi, L. Meng Looi & T. Soon Soo-Hoo

33 Detection of IgG and IgE antibodies to *Aspergillus fumigatus* in human sera by immunogold assay
H. C. Gugnani, K.E. Reijula, V.P. Kurup & J.N. Fink

41 CMI Description sheets: Set 99
A. Sivanesan

63 Instructions to authors

Vol. 109, No. 2

69 Dermatophytosis of the scalp: Incidence, immune response, and epidemiology
D.E. Babel, A.L. Rogers & E.S. Beneke

75 New antifungal agents for the systemic mycoses
S.M. Ringel

89 Mycology studies in space
P.A. Volz

99 Experimental pulmonary candidiasis
R.T. Sawyer

111 Twenty-five years with *Cryptococcus neoformans*
G.S. Bulmer

123 Models for studying the role of fungal attachment in colonization and pathogenesis
M.J. Kennedy

139 The development and application of ultrastructural research in mycology
K.L. Klomparens

Vol. 109, No. 3

149 T-2 toxin impairment of murine response to *Salmonella Typhimurium*: a histopathologic assessment
J.-H. Tai & J.J. Pestka

157 A mycological and bacteriological survey on feed ingredients and mixed poultry feeds in Reunion island
P. Bauduret

165 Patterns of mycotoxin production by *Fusarium graminearum* isolated from Argentine wheat
G.C. Faifer, M. Sala de Miguel & H.M. Godoy

171 Interacting effects of time, temperature, pH and simple sugars on biomass and toxic metabolite production by three *Alternaria* spp.
S. Özcelik & N. Özcelik

177 The possible involvement of cytokinins in the pathogenicity of *Helminthosporium maydis*
R. Angra, C.L. Mandahar & A. Gulati

185 CMI Description sheets: Set 100
Z. Kozakiewics
